

Demonstration of Proposed Features

Date	04a July 2026
Team ID	
Project Name	Smart Lender -AI Based Loan Eligibility Prediction System
Maximum Marks	1 Mark

Demonstration of Proposed Features: This document captures the key features proposed during the planning phase of the Smart Lender – AI Based Loan Eligibility Prediction System and verifies that each feature has been successfully implemented and demonstrated. The system enables users to apply for loans online, predicts loan eligibility using a Machine Learning model, and provides a secure, user-friendly platform for loan application management.

S. No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Registration & Login	Allows users to securely create an account and log in..	Implemented	Yes	Working Successfully
2	Loan Application Submission	Users can enter personal, financial, and employment details for loan eligibility prediction	Implemented	Yes	Successfully Completed
3	Loan Eligibility Prediction	. Predicts whether the applicant is eligible for a loan using the trained Machine Learning model.	Implemented	Yes	Accurate predictions generated
4	Result Dashboard	Displays prediction results, eligibility status, and application details.	Implemented	Yes	Graphs displayed correctly
5	Admin Dashboard	Enables the administrator to manage users, applications, and monitor system performance.	Implemented	Yes	Fully functional

Feature Implementation Summary:

Total Features Proposed	5
Total Features Implemented	5

Total Features Demonstrated	5
Overall Implementation Rate (%)	100%
